MIXMEISTER SCRATCH BRINGS DJ SCRATCHING TO iPhone AND iPod Touch

*New Software Download Is First Mobile DJ Scratch Tool To Use Touch Screen
Interface On iPhone And iPod Touch*

Cumberland, R.I. (MAR. 6, 2008) – MixMeister, the world's leading developer of software products for the DJ market, announces MixMeister Scratch – the first DJ scratch tool for Apple's iPod Touch and iPhone.

Unlike ordinary iPod song play back, MixMeister Scratch let's users perform a scratch anywhere, anytime – even right on top of any song in their iPod Touch or iPhone. MixMeister Scratch is both easy to use and fun for DJs of all levels.

Users can easily choose from a list of included vinyl scratch sounds and start scratching. Users can scratch on top of their favorite tracks by selecting music to play from their iPod or iPhone. Then they can load MixMeister Scratch while the music plays and can scratch on top of the music and adjust volume of the music in real-time using the touch interface.

MixMeister Scratch - the original DJ machine for iPhone and iPod Touch.

MixMeister Scratch will be a free download available in Q2-2008.

###

About MixMeister

MixMeister's award-winning powerful digital media products are used by club DJ's, mobile DJ's, aspiring and professional music producers, fitness instructors, dance choreographers, audio production engineers around the world. MixMeister specializes in streamlining burdensome mixing tasks, thus enabling newcomers to create professional-sounding, beat-matched music mixes for the first time.
